PRIYADARSHINI PALANI RAJAN

Chennai, India | priyadarshini.xo@gmail.com | GitHub | LinkedIn

EDUCATION

Vellore Institute of Technology, Chennai Apr. 2024 – Present
B.Tech in Computer Science and Engineering | CGPA: 8.87 *Chennai, India*

- Coursework: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming
- Ranked 2nd in Code Quest organized by SENSE under TechnoVIT'24
- Editorial Head, Girl Up – Led content planning and coordinated cross-functional teams to execute events and campaigns

Indian Institute of Technology Madras May 2024 – Present
BS in Data Science and Applications *Online*

- Received Grade A in Statistics I and Computational Thinking
- Received Grade A in Modern Application Development – I for Trekking Management System

EXPERIENCE

Stemonef Enterprises Dec. 2025 – Jun. 2026
Technical Researcher *Remote*

- Researched emerging trends in AI, biotechnology, and technology.
- Developed and evaluated ML models using datasets and research methodologies.
- Analyzed results and published technical reports and articles.

Vellore Institute of Technology, Chennai May 2025 – Jul. 2025
Summer Research Intern under Dr. Kanimozhi G. *Chennai, India*

- Researched data-driven techniques for Lithium-Ion Battery State Estimation and Prognostics.
- Developed ML/DL models for battery health prediction using Python, NumPy, SciPy, Scikit-learn, and Keras.
- Contributed to sustainability-focused research on battery lifecycle optimization and prognostics.

PROJECTS

Resume Battle – AI Resume Evaluation Platform *Python, Flask, PostgreSQL, AWS*

- Developed and deployed a resume analysis platform that evaluates candidates against real-world job descriptions.
- Built resume parsing, job-description matching, six-dimension scoring, and candidate comparison workflows using Python and REST APIs.
- Designed and deployed a production AWS architecture using EC2, S3, RDS, VPC, IAM, Security Groups, ALB, Auto Scaling, and CloudWatch.

MealTracker – AI-Assisted Health Data Workflow *n8n, LLMs, Telegram, React Native, Google Sheets*

- Built an AI-assisted health-data workflow using Telegram and n8n to convert meal descriptions into structured nutrition records.
- Integrated LLM-based intent detection, meal extraction, calorie estimation, and personalized wellness insights with automated daily summaries.
- Implemented validation and confirmation flows, with Google Sheets and Apps Script for persistent data operations.
- Developed a React Native app with Expo for meal tracking, search, editing, deletion, and near-real-time synchronization with workflow-generated records.

Trekking Management Website *Flask, SQLAlchemy, SQLite, HTML/CSS*

- Built a full-stack trekking management platform for trek discovery, booking, staff operations, and user reviews.
- Implemented authentication and role-based access control for administrators, trek staff, and trekkers.
- Designed relational database models for users, treks, bookings, staff, and reviews using SQLAlchemy.
- Implemented booking and availability checks to prevent overbooking and maintain consistent trek capacity.

CERTIFICATIONS

- **Microsoft Certified: Azure Fundamentals (AZ-900)**
- **Git and GitHub Certification**

TECHNICAL SKILLS

Languages: C++, Python, C, SQL
Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS
Web Technologies: HTML, CSS, JavaScript, Flask, REST APIs
Databases: PostgreSQL, SQLite, MongoDB, SQLAlchemy
ML Libraries: NumPy, SciPy, Scikit-learn, Keras
Cloud: Amazon AWS, Microsoft Azure, EC2, S3, IAM, Security Groups, ALB, Auto Scaling, CloudWatch
AI & Automation: LLMs, Prompt Engineering, n8n
Other: Git, GitHub, Time Management, Problem Solving
